## New FORD ECOSPORT and TOURNEO Technical Familiarisation

Keep up with the latest changes to affect our model range by attending this new course!

**Course Aim:**

To enable students to understand the operating principles of the latest technologies being fitted to the New FORD ECOSPORT and TOURNEO range. This will help to ensure the correct maintenance, diagnostic and repair procedures are applied during routine service or repair back in the workplace.

**Subject Matter Includes:**

You will be given an insight into the background behind the latest models to appear in our product line up. We will overview the features and technologies that carry over to these vehicles and also cover the new technologies in more detail. You will have the chance to interact with and get hands on with the new systems and use the latest tools to help you carry out diagnostics.

**Method:** Classroom, practical work and drive session

**Note:** Dress code for this course is smart casual. Delegates participating in practical exercise will need to bring PPE. Please bring both parts of your driving license. Refer to course joining instructions for further details.

**Target Audience:**

Ford Senior and Master Technicians

**Level:**

Intermediate

**Course Duration:**

1 day

**Prerequisite:**

NM58 New Ford Kuga  
2014 TAU1.C or TAU.2C
